

Nguyen Khac Ngoc Khoi

Front-End Developer

0384111265 • khoi.nkn12@gmail.com • <https://nknk-vn.github.io/portfolio> • Ho Chi Minh City

Summary

- 2 years of experience as Web Developer.
 - Strong technical skills in complex development with frontend and backend (preferably frontend).
 - Experienced in programming, debugging, self-testing, deploying, and verifying requirements.
 - Familiar with Agile Scrum, including working in sprints, daily stand-ups, and team collaboration.
-

Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Redux, Bootstrap, Tailwind, TypeScript, Ant Design.

Backend: Node.js, Express.js, Redis, JS Report.

Database: MongoDB.

Deployment: Docker, Google Cloud.

Other: Git, Slack, Linux.

Foreign Language: English (Intermediate).

Work experience

FINVIET TECHNOLOGY

Ho Chi Minh City

Front-End Developer

Oct 2024 - Now

I developed a DMS (Distribution Management System) portal at Finviet to support management and sales operations. Key features include:

- Contributed to the development of a DMS system to support management and sales operations.
- Used Ant Design Pro to create clean and user-friendly interfaces.
- Added Excel export features using JSReport for better reporting.
- Worked in an Agile team, closely collaborating with backend developers.

PROTONX

Ha Noi

Front-End Developer

Sep 2022 - Apr 2024

I developed an e-learning website to improve content management and student learning. Key features include:

- Designed and improved the user interface for a website that allows users to create and manage organization, classes and necessary teaching materials.
- Developed a user-friendly interface for students with features that support the learning process.
- Utilized the MERN stack across the project.

THE UNIVERSITY OF INFORMATION TECHNOLOGY

Ho Chi Minh City

Research Assistant

Jun 2019 - Mar 2021

Sensitive object detection:

- Researched basic and modern neural network architectures and their application.
- Evaluated the performance of object detection models on custom datasets.
- Working on object detection using model YOLO.
- Apply model text and object detection on Chrome Extension.

Project

DMS Portal

Oct 2024 - Now

Domain: <https://dms.finviet.com.vn>

Tech Stack: TypeScript, React.js, Tailwind, UmiJS, Ant Design, JSReport.

My responsibility:

- Built and optimized a user interface using Ant Design Pro for a smooth and consistent user experience.
- Used UmiJS for global state management and API handling, improving code structure and maintainability.
- Integrated JSReport to export data to Excel files, enhancing reporting capabilities for users.
- Implemented interactive map features with React Google Maps API to visualize customer locations and delivery routes.
- Focused on frontend development while collaborating with backend teams to deliver a responsive and efficient system.

ProtonX Client

Sep 2022 - Apr 2024

Domain: <https://protonx.io>, <https://protonx.coursemind.io>

Tech Stack: JavaScript, React.js, Bootstrap, Redux, Next.js, TypeScript.

My responsibility:

- Analyzed user requirements, collaborated with customers to define layouts, and developed UI components with React.js and Bootstrap.
- Developed a [Smart Editor](#) for composing more quickly with the Content Completion Feature, combined with ChatGPT API.
- Developed powerful content creation tools, e.g., drag-and-drop quizzes and another type of quiz.
- Developed an advertising website for courses using Next.js, optimizing it for SEO.
- Deployed the website on Google Cloud.

ProtonX Server

Aug 2023 - Apr 2024

Tech Stack: Node.js, Express.js, MongoDB, Redis.

My responsibility:

- Developed and maintained APIs using Node.js, Express.js and MongoDB.
- Enhanced API response times by implementing Redis caching.
- Implemented automated email tools and integrated AI with the ChatGPT API for content creation.

Education

VNUHCM - University of Information Technology (UIT)

Ho Chi Minh City

Computer Engineering

Sep 2015 - Jun 2021
