Project

DMS Portal - <https://dms.finviet.com.vn>

Oct 2024 - Now

Tech Stack: TypeScript, React.js, NestJS, MongoDB, Redis, Tailwind, UmiJS, Ant Design Pro, JSReport, Jest, React Testing Library.

- Built and optimized dashboard UI with Ant Design Pro, covering multiple modules for sales and distribution management (orders, customers, reporting ...).
- Used UmiJS for global state management and API handling across the dashboard, improving code structure and maintainability.
- Integrated JSReport to export data to Excel files, enhancing reporting capabilities for users.
- Implemented interactive map features with React Google Maps API to visualize customer locations and delivery routes.
- Contributed backend REST endpoints (NestJS, MongoDB), including Redis caching to reduce redundant database queries on frequently accessed dashboard data.
- Wrote unit and integration tests (Jest, React Testing Library) to ensure component reliability across core modules.

ProtonX Client - <https://protonx.io>, <https://protonx.coursemind.io>

Sep 2022 - Apr 2024

Tech Stack: JavaScript, React.js, Bootstrap, Redux, Next.js, TypeScript.

- Analyzed user requirements and collaborated directly with customers to define UI/UX layouts, then implemented with React.js and Bootstrap.
- Built a [Smart Editor](#) with AI-assisted content completion (ChatGPT API integration) to speed up content authoring for instructors.
- Developed content-creation tools, including drag-and-drop quiz builders supporting multiple quiz formats.
- Built a course marketing website with Next.js, optimized for SEO.
- Deployed and maintained the application on Google Cloud Platform.

ProtonX Server
